

JIS H grade Nickel chrome plated version is now available!

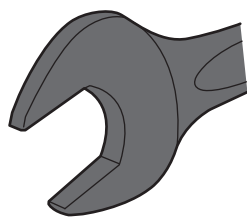

Strong type for high load work

By the thickness of the bolt contact surface, the SSP (JIS H grade) is 1.5 times stronger than our SN (JIS N grade) spanner. This is a strong type that can be used safely in harsh environments where work under a high load is required.

The handle is designed for easy gripping, and the surface treatment is nickel-chrome plated for a beautiful finish.

New SSP (JIS H grade)

Our SN (JIS N grade)

Wide range of sizes-32 in all

The lineup includes a total of 32 sizes ranging from 5.5 MM to 75 MM to accommodate a variety of work environments.

Code	mm	C mm	T mm	L mm	Weight g	
SSP0005	5.5	17	3.2	82	10	10
