

Thin but strong!!

Thin type strong spanner

Perfect for tightening in narrow place!!

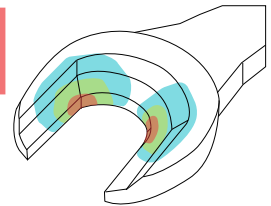

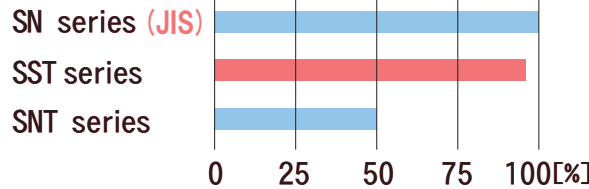

Point 1

Almost as strong as a standard spanner!

Strength Comparison

90% of the strength of our standard spanner (SN) despite its ultra-thin!

- Standard spanner
- NEW Thin type strong spanner
- Thin type spanner

The characteristic spanner head shape distributes stress on the thin-walled part to the thick-walled part.

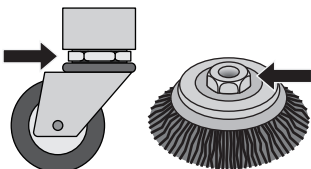

Point 2

Compatible with thin nuts!

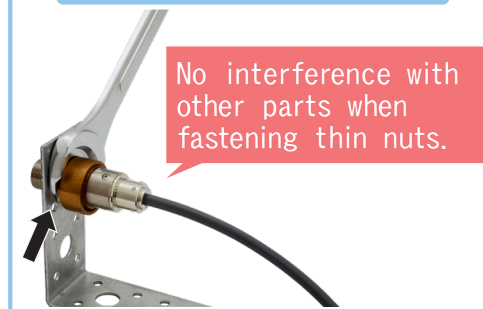

Thin nuts attached near vibration sources and easily loosened can be strongly tightened.
(Ex. electromagnetic pulse pickup sensors)

Example of use

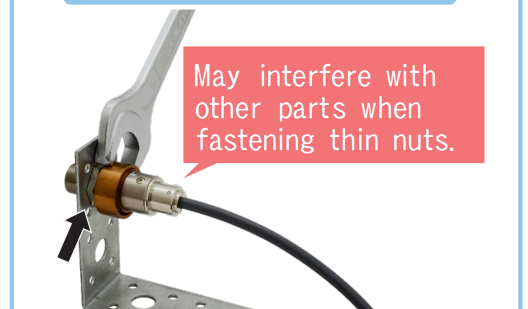

- Sensor nut
- Caster feet
- Grinder cup brush

In case of thin type strong spanner

In case of standard spanner

※Example of use for electromagnetic pulse pickup sensors.

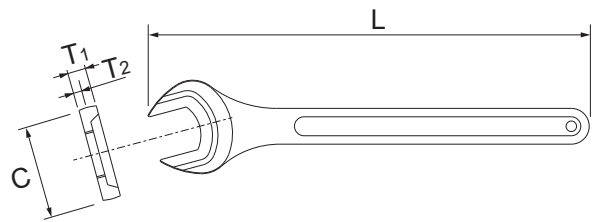

Thin type strong spanner
