Catcher Ball

Strong holding power **Excellent durability**

A spring suspension and a steel ball implanted by a high – precision processing technology holds the bolt securely. The bolt is firmly secured and does not need to be a held by a hand before or after tightening, or during work in an inaccessible place.

Anti-Drop A Bolt!

Ball Point

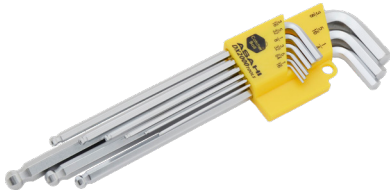

Designed to be used at an angle off-axis to the screw by 25 degrees. It can be effective for work in complicated places.

25 degrees
